## Phil Taylor's Mum never doubted her son is a REAL champion!

Taking time off work to help out mum is something any loving son will do. Stoke-on-Trent's darts ace is no exception, and Phil spent the morning taking his mother Betty around the area looking at riser recliner chairs. Within a few minutes of arriving at the last port of call – Castle Comfort's Wolstanton showroom, it was declared that they had found there by far the best choice and service. A chair was in stock that Betty felt was ideal, and as part of the standard service of CCC for almost 20 years, the delivery was made immediately, and the unwanted chair being replaced was moved without cost. Phil Taylor was delighted to get his mum sorted out so quickly, and gave permission for the photos taken to be used in this Clarion. Also, a film of the moments Mum Betty received her chair was published

on the web – and has been seen my millions! Search Google for “Phil Taylor Mums Chair” and CCC are at number 1!

This is why many people call at Castle Comfort's show houses at Newcastle or Wolstanton to have a ride on a stairlift. This pretty unique facility is available to anyone planning being safe on their stairs. Also with a description of your stairs, better still a photo, an on the spot quotation can be given to think about. *See p4 for directions to the Castle Stairlift Show homes.*
